Grants Advisory Service

R&D Project Registration

NIHR GOSH BRC Funding

All new research applications must be registered with R&D at **least 15 days before the funder deadline**. R&D office is closed and all staff are working remotely or across various parts in the Trust. Please contact relevant teams by email if you require support.

HIGHLIGHTED FUNDING OPPORTUNITIES

Social sciences and Humanities Research—European Joint Programme on Rare Diseases (EJP RD) [Call for Proposals 2021](#)

Opens: December 2020; Deadline: February 2021

This call aims to build an effective transnational research collaboration with a clear future benefit for patients. Proposals must cover at least one of the following areas:

- Health & social care services research to improve patient and familial/household health outcomes
- Economic Impact of Rare diseases
- Psychological and Social Impact of Rare diseases
- Impact/burden of the delay in diagnosis and of the lack of therapeutic intervention.
- e-Health in rare diseases: Use of innovative technology systems for care practices in health and social services
- Development and enhancement of health outcomes research methods in rare diseases
- Effects of pandemic crisis and the global outbreak alert and response on the rare disease field.

Please also check the [full list](#) of [excluded/ineligible](#) topics before deciding to apply. Consortia submitting a proposal must involve at least 3 PI partners from at least 3 different countries participating in Call JTC 2021. No more than two eligible partners from the same country can be present in each consortium, and further national limits may apply. The participating countries have not yet been announced.

[The Francis Crick Institute PhD for Clinicians](#)

Deadline: 12 November 2020

Open to clinicians (up to, excluding, consultant level) to perform biomedical discovery research in a 3-year PhD programme with focus on why disease develops and improving diagnosis, prevention and treatment. Eligible applicants will have a medical/dental degree, previous wet or dry lab research experience and a GMC (or equiv.) registration. These are full time research positions with limited participation in clinical activities.

[Methodology Research Programme](#)

Deadline: 11 November 2020

Funding for up to 5 years for methodology research, including:

- biomedical, behavioural and social science, experimental and stratified medicine, randomised trials, cohorts and other research designs investigating health, healthcare, health services and health policy.
- effective regulation (including indices for decision making), approval, adaptation and reporting of new interventions
- valid measures of health

★ [Long-term COVID-19 effects in non-hospitalised individuals](#)

Deadline: 9 December 2020 (opens 12 Nov)

This is a pre-call announcement of the joint call for projects into the longer term, physical and mental effects of COVID-19 in non-hospitalised individuals.

[Adopting Innovation Programme](#)

Deadline: 11 November 2020

An expression of interest call to establish an innovation hub as a partnerships between NHS providers and local health systems across the UK. The hub will act as centre of expertise and support within provider organisations to help them, and their local health systems, become better adopters of innovation. £475,000 for 2.5 years is available for each hub.

[GOSH BRC Junior Faculty Conference and Training Support Fund](#)

Deadline: 25 November 2020

Support for junior researchers to attend and participate in conferences, meetings and other training opportunities.

[Health Systems Research Initiative Research Grant](#) Deadline: 19 January 2021

Multidisciplinary, collaborative and multi-country/multi-site applications that address a clearly defined challenge faced by health systems in LMICs that identify and address a range of health systems

topics including to questions of governance, structure, institutions, social policy, health workforce, financing/trade, private sector, civil society, information systems, products and technologies, supply chains, service delivery. Proposals must situate this challenge within an understanding of the broader health system linkages and describe how and why findings have the potential to im-

[Little Princess Trust Innovation Grant](#)

Deadline: 26 November 2020

Funding of £500k-1M is available to support a single project addressing a key question in paediatric cancer therapy. Applications are invited for innovative studies that explore **new approaches to treatment**, in particular:

- More effective treatments with fewer side effects for the patient while on treatment.
- More effective treatments resulting in improved survival rates.
- Approaches to treatment that may lead to a reduction in short and long-term sequelae of treatment (specifically how improved treatments might lead to a reduction in late effects, rather than interventions targeting specific late effects post-treatment).

The Trust generally funds basic science (with a clear plan for translation/patient benefit), translational and clinical research.

[AMS Professorship](#)

Deadline: 23 November 2020

Support up to 5 years and a max of £500k to biomedical and healthcare researchers, who have moved to the UK, during the initial years of their first full Professorship.

ANNOUNCEMENTS, NEWS, EVENTS

OPPORTUNITY: UKRI Early Career Forum pilot
UKRI are planning to launch an forum to recruit 400 ECRs with the aim to engage with the community on the issues that matter to ECRs. Those interested in finding out more about the pilot forum, as well as those planning on making an application, should complete the [online form](#).

EVENT: UCL Institute of Healthcare Engineering Research Symposium

27 October, 9:30am—2:30pm, Webinar

Showcasing healthcare engineering research, this event is an opportunity to learn about exciting research across UCL and network with likeminded researchers and innovators.

Please **acknowledge the BRC in your publications!** NIHR GOSH Biomedical Research Centre has provided important infrastructure funding for research at the GOSH ICH and GOSH, since we were first awarded BRC-status in 2007. This research infrastructure contributes to all research that goes on at the ICH and GOSH, and it is very important that it is acknowledged in all our publications, including conference and meeting abstracts. Full details of how to acknowledge the BRC can be found [here](#).
